Parish Nursing  
Ministries UK

Parish Nursing Ministries UK is a charitable company formed to develop parish nursing in the UK. We offer training, coordination and resources for parish nursing ministries.  
Company number: 5451295 Charity no:1111680

*"I believe that parish nursing is a brilliant opportunity for outreach within our communities in this century. Local nurses who can care for those who are sick and needy within their neighbourhoods is not only a wonderful example, but also a way of using their gifts and areas of influence to the glory of God. We are called, by Jesus, to go into all the world to make disciples, and when people are fearful or in pain, they are likely to be grateful for support and even prayer. This gives an opportunity to talk about "things that really matter," without embarrassment. I would encourage anyone with nursing skills and some free time, to make a difference in the community in this amazing way."*

**God cares for the physical, mental, social and spiritual wellbeing of everyone, whether or not they come to church.**

A recent survey of parish nurses gives a glimpse of their amazing work. 95% of them work with older people, 73% support those with mental health problems and 63% help those living with a disability. That's in addition to their work with children, young people, ethnic minorities, those with addictive behaviours, asylum seekers and sex workers .

**What can a Parish Nurse do?**

Home visits, clinics in church premises, carer support groups, exercise groups, health education and screening, advice for good nutrition, and health advocacy of various kinds are the main interventions. To help them in this work they recruit, train and coordinate a volunteer team. They liaise with GP surgeries, follow up people who come home from hospital, refer to other voluntary agencies, and will pray with people if they want that. But the thing that parish nurses value most is the ability to spend time with people , actively listening to their concerns and offering spiritual care.

Just think...if everyone could have access to this kind of care alongside whatever the state can provide, how many more people would find the life in all its fullness that Jesus came to bring?

**Our Vision**

We want to see a parish nurse in at least one of the churches in every UK suburb, town, or large village. There are around 40,000 UK churches and 600,000 registered nurses. So there's a long way to go...but our goal for the next 3 years is to double the number of churches with a parish nurse from 80 to 160.

**Our Task**

Churches contribute towards the costs of training, local practice, resources and professional support. But in addition to that, we travel, hold seminars, speak, and exhibit, using our contacts, influence, leaflets, social media, and website to make parish nursing better known. Much of this is done on an expenses-only basis. With your help we can share our vision much more widely, can help churches to embrace a broader view of wholistic health, and contact the many Christian nurses who would love to work with a church for at least part of a week.

**And so...we invite you to become a friend**

If someone you know has benefited from the free services of a Parish nurse, or if, like us, you see the potential of this amazing ministry, we want to invite you to help us make it more widely available.

**What can you do?**

We're looking for 500 friends. If you'd like to be one of them, simply fill in this form, make a regular gift, and we'll keep you updated. If you want, we can also put you in touch with your nearest cluster of parish nurses so that you can encourage them....And if you'd like to attend our regular symposium events, we'll give you a discounted rate.
